

International Event

For Practitioners: Intervening in Meaning

Finding significance in grief and loss.

A 'hands on' version of Dr Robert Neimeyer's international masterclass, this 2 day workshop incorporates experiential components that are designed to immerse participants in the learning. These will include chair work, felt sensing and virtual dreams. Suitable for any practitioner who wants to learn principles to apply to challenging grief work and gain personal experience of putting them into practice

For Supervisors: What You Need to Know

Supervising when the issue is grief.

This experiential 1 day workshop is designed to offer some in-depth insights about supervising when your supervisee's client is experiencing grief. Using constructivist supervision as the framework, Robert Neimeyer will provide illumination through the sharing of his own work with supervisees and facilitating self-exploration exercises

3 Day Package

Why not take both?

If you are a practitioner who also supervises, round out your experience of the 2 day practitioner master class with a full day on supervising when grief is the client's presenting issue

Dr Robert Neimeyer, PhD

Fellow of the Clinical Psychology Division of the American Psychological Association

Robert Neimeyer is recognised internationally as a leader in the field of loss and grief. His clinical work explores creative and expressive ways of making meaning in the face of loss.

Robert is a Professor and director of psychotherapy research in the Department of Psychology at the University of Memphis, where he also maintains an active clinical practice.

He is the editor of two respected journals: *Death Studies* and the *Journal of Constructivist Psychology* and has published 30 books, including *Techniques of Grief Therapy: Creative Practices for Counselling the Bereaved* and *Grief and the Expressive Arts*.
